

## HMSI ENVIRONMENT POLICY

Honda Motorcycle and Scooter India Pvt. Ltd. (HMSI), manufacturer of two wheelers, strives to contribute proactively for the well-being of people and environment in all areas of its business to maintain a status of leadership through its actions. By adopting "Environment Management System", HMSI contributes towards Honda Global Vision "Serve people worldwide with the Joy of expanding their life's potential".

To achieve Zero environmental impact, we are committed to implement the following activities across all business segments.

- Enhancing our Actions towards "three-pillars" of our global perspective :-  
(1) Carbon neutrality (2) Clean energy (3) Resource circulation
- Maintain Proactive approach to comply all applicable laws & statutory requirements and compliance obligations and strive to go beyond in products and corporate activities
- Periodic review and evaluation of environmental objectives and actions to achieve the intended outcomes of Environment Management System through Continual Improvement approach.
- Usage and consistent review of environment friendly products to realize zero impact on environment considering technological and economical feasibility.
- Enhancement of environmental awareness and competence amongst our employees and encourage all interested parties to embrace Environment Management System.

We shall endeavour to be a company that society wants to exist. We will continue to enhance our working on preserving and protecting the environment and society as per requirements.

The policy shall be well communicated with in the organization & to all other interested parties.
